Immediate Results

- With minimal effort and low up-front investment, timeXtender immediately enables Business Intelligence for everyone in your organization.

- timeXtender gives you the fastest delivery cycle from implementation through to dashboards, reports and scorecards.

- timeXtender takes months off the Business Intelligence implementation process by giving you immediate access to data warehouse and cube templates designed for your IT system and industry.

- timeXtender is easy to use and learn. Therefore, when you choose timeXtender, you acquire a Business Intelligence solution that creates less work in your organization.

Agile

- timeXtender is the smarter way of working with Business Intelligence. It eliminates all the complicated and deeply technical issues of traditional Business Intelligence tools.

- timeXtender replaces the complex Business Intelligence backend with a single graphical user interface for ETL, data warehousing, and cube building. It removes the need for a big pile of expensive tools.

- The ability to quickly change your timeXtender based BI solution means that you can accommodate the need for new reports or queries at low cost.

Quality Information

- timeXtender enables you to find the valuable information you know is there and empowers your employees to actually use it and move your business forward.

- With timeXtender you improve the accuracy of your information by getting rid of incorrect, incomplete, or obsolete data.

- timeXtender integrates data from across your organization and provides an easy path to actionable information.

- timeXtender gives you the insights that enable you to pick out trends and be proactive in responding to changing customer needs and market demands.
Affordable

- Faster deployment cycles mean that timeXtender slashes the costs of going live with Business Intelligence.

- Your total cost of ownership (TCO) is low because timeXtender minimizes the expenses and time associated with customizations and maintenance.

- timeXtender reduces the cost and time needed to acquire and share information throughout your company – enabling you to turn 50 hours of work into 50 minutes. You achieve a fast and high return on investment (ROI.)
Any Frontend

- With timeXtender you are free to select any front-end tool that meets your needs for viewing dashboards, scorecards, and reports.

- timeXtender can also be used with the applications your employees are already familiar with including Microsoft Excel, Microsoft SharePoint, Targit or similar. They'll feel comfortable doing their tasks, and no expensive training is required.

- timeXtender bring together information from all your sources in one place, and enable you to set new goals.

Plain SQL

- timeXtender is a quality engine based on Microsoft SQL Server that enables and accelerates Business Intelligence for any organization.

- timeXtender auto-generates the underlying standard SQL code of your Business Intelligence solution.

- The generated code is readily available - there's no mumbo-jumbo and nothing is hidden.
