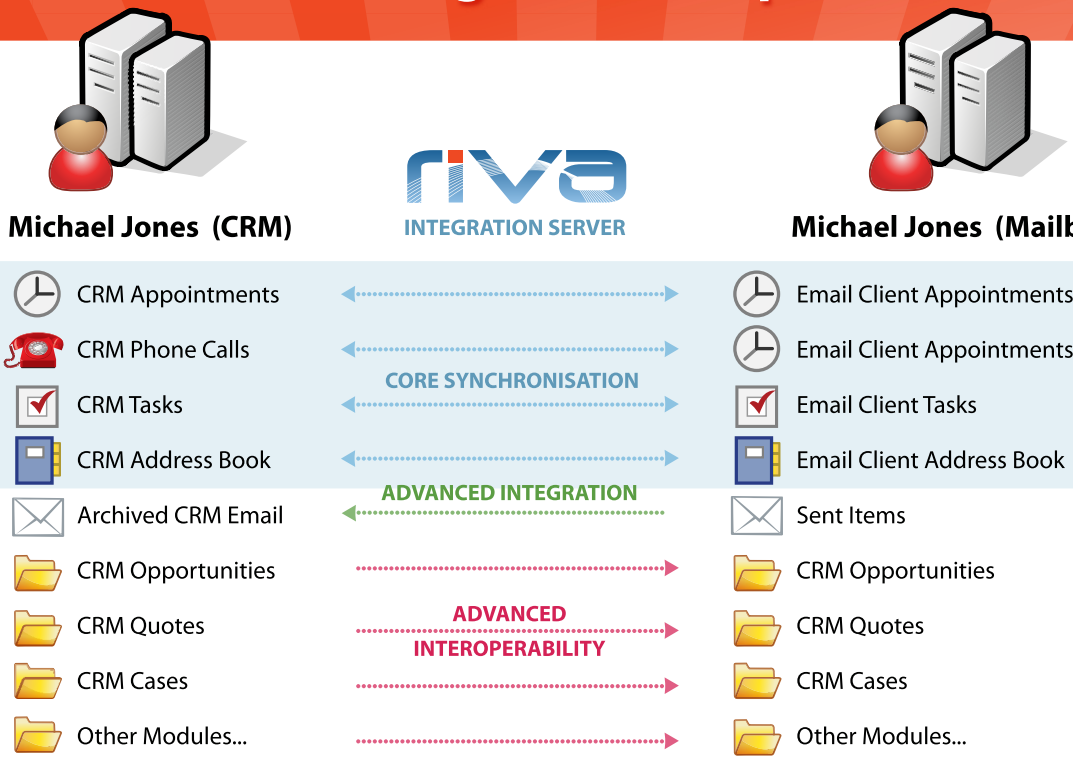
Riva Integration Server

Transparent, server-side CRM integration for Exchange and GroupWise



Better than your current Outlook plug-in

Riva Integration Server for Microsoft Exchange and Novell GroupWise delivers server-side, enterprise-level CRM integration and advanced interoperability for leading CRMs such as Salesforce, Microsoft Dynamics CRM, Oracle CRM, SugarCRM, SageCRM, NetSuiteCRM and others.

Riva Integration Server gets installed once at the server level instead of installing an Outlook plug-in on each user's desktop and mobile device. Riva leverages the power of Exchange and GroupWise's native features.

Executives, salespeople and support staff appreciate the quicker, easier and better integrated access to their CRM appointments, phone calls, tasks, contacts, leads, opportunities, quotes and cases directly from ALL Exchange and GroupWise clients – **Outlook, Outlook Web Access, Entourage for Mac, ActiveSync mobile devices, BES, GroupWise, IMAP and more.**
