Se mere om bogen

Forfatteren til webbook'en, Kenn Römer-Bruhn, arbejder også med design, instruktion og undervisning inden for den grafiske branche. Kenn tager desuden rundt i hele landet og underviser på reklame bureauer, tegnestuer, trykkerier, marketingafdelinger mv. Og med en solid viden omkring hele branchen, er det også Kenn der afholder foredrag for en lang række af landets store fagforbund, institutioner o.lign.

The screenshot shows the cover of the webbook. It has a pink header with the title "Adobe InDesign - tips & tricks" and the subtitle "af Kenn Römer-Bruhn". A yellow diagonal banner on the right side says "GRATIS UDGAVE". Below the title, there's a short description: "Du er nysgerrig efter nyheder, tips og tricks i Adobe InDesign. Så kig med i denne webbook, der kommer ind på værktøjspaneler, arbejdet med arbejdsmiljø, mere om paneler, farveblads-baserede dokumenter, arranger dokumentindslues, ændringer til et dokument, powerzoom, nye filformater m.m." At the bottom, there's a small image of the author and some footer text about the book's features.

Forsiden

The screenshot shows a page from the webbook titled "Nye paneler i Adobe InDesign CS4". It features several screenshots of the InDesign interface displaying the new panels. One panel shows a color palette with a "Kuler" tab selected. Another panel shows a "Fargeover" (Color Over) panel. The text on the page describes the new panels and their functions, such as the "Kuler" panel for color management and the "Fargeover" panel for color correction.

Nye paneler i Adobe InDesign CS4

The screenshot shows a page from the webbook titled "IDML-formatet i Adobe InDesign CS4". It includes a diagram of the "IDML InDesign Markup Language" structure, which maps various InDesign elements like text frames, tables, and images to XML tags. Below the diagram, there's a screenshot of the InDesign interface showing a table being edited. The text on the page explains how to use the IDML format for exporting documents to XML files.

IDML-formatet i Adobe InDesign CS4

The screenshot shows a page from the webbook titled "Nye muligheder i programmet". It includes a screenshot of the InDesign interface showing a table being edited. The text on the page discusses new features like "Roter dit montagebord" (rotate your assembly board) and "Tabeler kan officielt nemmest at tilgå via teknikdronen" (tables can now be accessed via the technical drone).
