VALTHORENS.COM

the new pocket media solution

Having become the **top French ski resort website** with over 5 million hits per year in just 5 years, www.valthorens.com has had a makeover, reinventing the formula for mountain resort websites with a new media-based approach. Designed a bit like a **magazine**, it prioritises content production, capitalising on the Val Thorens community. The interface is focused on the here and now, with new content being added all the time by the Val Thorens blogging community.

Given that the use of digital devices is now mainly mobile-based, the site is designed to be "Mobile First". Surfing the site is **fluid** because it's the same across PCs, mobiles and tablets, and the information can be **personalised** via customer accounts and **contextualised** thanks to weather information, seasons.

An artistic eye: always creating new high-quality original and innovative content, Val Thorens is working with Grenoble-based start-up company Enlaps to produce time-lapse videos throughout the season. The world's first unit dedicated to this technology allows people to share magical changing landscapes and instant highs at the click of a button.

REAL-TIME INFORMATION REVOLUTIONISING SAFETY ON THE SLOPES

“The digital revolution is well on its way for French slope maintenance services – both in terms of skier enjoyment and safety. Ski patrol equipment is being updated with new geo-localisation devices. In introducing these resources, Val Thorens is a truly pioneering and visionary force in terms of what will become common practice 3 or 4 years’ time.”

Benjamin Blanc, head of the Belleville Valley slope maintenance service.

REVOLUTION

Real-time information on the slopes.

INNOVATION

Real-time operational management of the ski area.

APPLICATIONS

- situation-adapted information and prevention messages sent to skiers. Example: Skiflux
- rescue services alerted sooner because the ski patroller nearest to the injured person has a real-time view of the situation
- less water used for making artificial snow due to knowledge of the exact depth of the snowpack on the slopes. Example: Snowsat system
- accurate mapping and history of secured avalanche zones
- and plenty more developments to come...

new

SKI FLUX Live info on the slopes

The innovative, cutting edge resort slope maintenance service has created the ‘Ski Flux’ system, which gives skiers real-time information about how busy the runs are. The system is entirely new to France and measures the flow of skiers via sensors on the runs. Data is converted into a message displayed in real-time on screens located above the places where runs intersect, allowing users to choose the route best for them. Ski Flux is being trialled

in the Grand Fond areas where three giant screens (measuring 3m x 2m and seven times brighter than a standard screen) will provide specific up-to-the minute information such as different snow levels on the runs, a **geo-localised** weather report and itinerary tips so you have all the information you need to make every day the best day of the season.

ACCOMMODATION

Val Thorens has its own special way of giving you a warm welcome in the mountains: generosity, a relaxing atmosphere, excellence and of course doing things differently! “Reinventing the resort holiday”, so guests can really get the max from the precious time they spend together.

NEW 4-STAR FAHRENHEIT SEVEN HOTEL PLEASURE AS AN ART FORM

Chic and fun, the Fahrenheit Seven Hotel is the new hip place for those looking for something a bit different. It's a great winter hide-out that's full of surprises.

Fahrenheit Seven is the new identity of the historic Mercure Hotel. Chic design showcases the resort's history, taking visitors on an amazing journey back to the pioneering days of Val Thorens. Photos of friends in their salopettes and straight skis decorate the walls, whilst old gondola cabins sit side by side with mismatched vintage furniture, offering a colourful addition to the generous amount of space. A must for anyone who enjoys rounding their day off with a relaxed evening over a glass of wine, soaking up the social buzz of a rooftop terrace or snuggling up by the fire. And as a special treat for families, they enjoy priority access to **13 interconnecting rooms**.

Owners: the project grew out of a long friendship between the Unger & Vidoni families, with their love of skiing and hospitality. Dominique Tournier joined as general manager and third partner. A legendary figure, Dom is mainly known as former coach to downhill champion Adrien Théaux and founder of the awesome Folie Douce in Val Thorens.

Facilities: 107 rooms (offering a surface area of 27m² or more), 13 interconnecting rooms accommodating 5 people (priority to families), 4 lounging and dining areas: fireside area, two rooftop terraces with après-ski bar, rotisserie restaurant, “Le Zinc” foodie bar, well-being area and fantastic meeting room if you absolutely insist on getting down to some work!

JOINED BY THEIR MOUNTAIN HERITAGE

Bonded by their mountain roots, a handful of Val Thorens locals have been involved in helping with the development of small mountain villages in Vietnam for 20 years now. Financial assistance has been obtained through the association and the "Kontum" event run by François-Xavier, a Vietnamese ski instructor working in Val Thorens. This winter, clients of MacleImmo estate agency will also be helping with this wonderful solidarity initiative, as directors Marie-Ange and Clémentine will be donating a percentage of their profits to the "Kontum" association.

THE BEST OF SKIING

SETAM, the ski lift company is introducing a number of innovations, investing 20 million euros to make the experience bigger and better for skiers.

2 SKI LIFTS AND 1 RED RUN

On the **Péclet sector**, the Roc and Stades ski tows installed in 1974 and 1982 respectively, have been taken out of service and replaced by a **detachable 6-seater chairlift**, Le Stade, up to the top of the Trolles run (480 metre vertical drop, 20 pylons, 107 seats). And the new Croissant red run provides guests staying at the higher end of resort a new return route – equipped with 8 new snowmakers.

A training and competition venue highly prized by slalom and giant slalom specialists for the quality of its snow cover, the Val Thorens Stadium now has a new Le Club ski tow for exclusive use by athletes, giving them ideal performance conditions.

The Boismint area has had an upgrade, with a new **detachable 6-seater chairlift**. Faster (5.5m/s – capacity of 3,000 people/hour) and following a slightly different route from the previous one, it will give skiers new options for getting the best out of the slopes. Great news for early-birds!

ALPEN ART CONCEPT STORE - CULTURE IN A CHILLED-OUT ATMOSPHERE

Owner: Aurélie Rey is a real local girl – daughter of Camille Rey, resort pioneer and 1st mountain guide in Val Thorens, she is a talented ski instructor and painter of the mountain landscape. She is now sharing her passion for the peaks with the new kind of venue she has created.

Ambiance: the Alpen Art concept store is set in the heart of the resort, with a stunning 200m² lounge area. Part exhibition and sales space for mountain artists - photographs, paintings and everyday art objects plus limited edition pieces - and part gourmet café, with surprising combinations such as coffee duos and tea and cheese (Aurélie’s own personal indulgence). It’s neither an art gallery nor a traditional tearoom, but a buzzing place for getting back to what really matters.

Yoga lessons every Wednesday morning between 10.30am and 11.45am and a children’s library corner with a great events programme. Come the evening, Alpen Art comes alive with champagne bubbles and finger food. This new space brimming with thousands of ideas already looks set to be one of the top places to go.

Little extras: Aurélie even offers gluten free treats and take-away soups! Love the decor? The coffee tables and cups are yours, via the checkout, of course!

GASTRONOMY

Val Thorens' chefs are explorers, coming back every season brimming with ideas to wow diners with completely new experiences.

INSPIRATION FROM ASIA AT THE 1 MICHELIN-STARRED EPICURIEN

Chef Jérémy Gillon spends his winters in Val Thorens and his summers in a prestigious restaurant in Singapore, and it is this sense of culinary escape that he brings to his winter menus. This season sees Asian specialities such as fermented soybean, dried anchovies and seaweed preserved in salt on the menu. And Jérémy doesn't stop there - extending the cross-cultural exchange to two amazing dinners cooked in conjunction with chefs from Singapore, a real voyage of discovery.

EVENTS

Val Thorens is the first ski resort to open for the season and the last to close, hosting fantastic events for enthusiasts to attend every winter.

WORLD PREMIERE - 26TH AND 27TH NOVEMBER

This year the highest altitude resort in Europe is putting on a show to mark the start of the ski season. Val Tho will be taking centre stage and plunging snowsports fans into a life-sized cinematic wonderland. The theme extends through fun accessories: a giant clapperboard to kick things off, a (real!) red carpet on the freshly groomed, practically deserted runs. A host of other surprises await event-goers at the opening weekend of the 2016/2017 winter season, which is attended by the snowsports elite.

Professionals from the major, most exclusive and alternative brands are coming to Val Thorens to present their innovations in equipment, clothing and accessories. Every snowsport will be on the bill, including all varieties of equipment manufacturers: Alpine skiing, snowboarding, ski touring, freeride skiing, freestyle and snowscoots, as well as brand new inventions to discover!

Throughout the weekend, a number of activity zones will be hosted by professionals in the discipline: **mini snowpark, big air bag, snowscoot trampolines, ski touring area and carving zone.** The Rock On Snowboard Tour and the Freegun Snowscoot Tour will also both kick off that weekend.

There will be non-stop entertainment in the brand village with Happy Hour, games galore and a number of free gifts. Ski instructors from the UCPA will also be in the village to guide skiers around the ski area and show them all the best spots! On Saturday, the fun will be followed by a huge DJ après-ski show from 5pm to 6.30pm. A promising headline act will be unveiled in October, so stay tuned!

This legendary Val Thorens event is like the resort itself: fun and colourful, with all the ambiance of a Grande Première at the cinema!

GRANDE PREMIÈRE OFFER 26TH & 27TH NOVEMBER 2016: weekend from €108 per person: 2-day ski pass + accommodation in a 4-person studio apartment (based on full occupancy) + admission to ski equipment trials.
